DETAILED ACTION

Allowable Subject Matter

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: prior art reference does not teach or render obvious an EEPROM cell comprising a first pocket implant doping region, disposed below the stacking layer in the substrate being adjacent to the first source/drain region; and a second pocket implant doping region, disposed below the stacking layer in the substrate being adjacent to the second source/drain region, and a doping concentration of the first pocket implant doping region is different from a doping concentration of the second pocket implant doping region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reference A is being cited since it shows a EEPROM cell comprising pocket implant regions.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thien F. Tran whose telephone number is (571) 272-1665. The examiner can normally be reached on 8:30AM - 5:00PM Monday through Friday.
